1. DESCRIPTION OF BUSINESS AND NATURE OF OPERATIONS

Northern Superior Resources Inc. (“Northern Superior” or the “Company”) is an exploration stage junior mining company engaged in the identification, acquisition, evaluation and exploration of gold properties in Ontario and Québec. The Company has not determined whether its properties contain mineral reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation properties and related deferred costs is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development, and attaining future profitable production from the properties or proceeds from disposition.

The Company is dependent on raising funds through the issuance of shares and/or attracting joint venture partners in order to undertake further exploration and development of its mineral properties. Management believes that financing is available and may be sourced in time to allow the Company to continue its current planned activities in the normal course.

The head office, principal address and registered and records office of the Company is 1351C Kelly Lake Road, Unit 7, Sudbury, Ontario, Canada, P3E 5P5.

2. BASIS OF PREPARATION

a) Statement of Compliance

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. These condensed interim financial statements should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2014, which have been prepared in accordance with IFRS issued by the IASB.

These condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as available-for-sale (“AFS”), which are stated at their fair values. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the December 31, 2014 annual financial report.

b) Approval of Financial Statements

The condensed interim financial statements of the Company for the six months ended June 30, 2015 were reviewed by the Audit Committee and approved and authorized for issue by the Board of Directors on August 10, 2015.

3. SIGNIFICANT ACCOUNTING POLICIES

a) Use of Estimates and Judgements

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates where management’s judgment is applied include asset valuation, asset retirement obligations, income taxes, share-based payments and ability to continue as a going concern. Actual results may differ from those estimates and judgements.

Northern Superior Resources Inc.
Notes to Condensed Interim Financial Statements
For the three and six months ended June 30, 2015 and 2014
(Expressed in Canadian dollars)

Ti-pa-haa-kaa-ning (“TPK”) property

The Company owns a 100% interest in the TPK project. The Company incurred expenditures of \$118,005 (2014-\$78,857) on the property during the six months ended June 30, 2015 and since acquisition has recorded total cumulative expenditures of \$17,022,129 on the property.

The Company recorded write-downs of \$4,050,000 in 2014 and \$9,000,000 in 2013. The write-downs were based on a number of impairment review factors, including, but not limited to, the Company's assessment of indicated market value, current and the Company's market capitalization.

Under an agreement with Lake Shore Gold Corp. (“Lake Shore”) dated May 27, 2010, the Company granted Lake Shore an assignable (subject to a right of first refusal in favor of the Company) 2% Net Smelter Royalty (“NSR”) on all minerals produced from TPK, with the Company having the right to purchase back one quarter of the NSR (0.5%) for \$1,000,000. On 5 of the TPK claims, there is also a 2% NSR on all commodities in favour of Vale S.A., and on 7 of the TPK claims there is a 2% NSR for diamonds only in favour of Vale S.A.

The agreement also provided that: (i) the Company will be responsible for all expenditures on TPK from January 1, 2010 onward; (ii) for a period of 5 years and so long as Lake Shore maintains at least a 10% ownership interest, it will be offered the right to participate in any future equity financings pro rata in order to maintain its ownership interest; and (iii) for so long as Lake Shore maintains at least a 19.9% ownership interest it will be entitled to nominate at least two directors to serve on the Company's board, and should its holdings drop below 19.9% but remain above 10% it shall be entitled to nominate one director.

Croteau Est property

The Company incurred net expenditures of \$17,783 (2014-\$350,224) on the property during the six months ended June 30, 2015 and since acquisition has recorded total cumulative expenditures of \$6,556,539 on the property.

On December 31, 2014, the Company recorded a write-down of \$4,621,735 (2013-\$Nil) with respect to the Croteau Est property. The write-down was based on a number of impairment review factors, including, but not limited to, indicated market value and the Company's market capitalization.

Waconichi property

The Company incurred net expenditures of \$105 (2014-\$22,090) on the property during the six months ended June 30, 2015 and since acquisition has recorded total cumulative expenditures of \$799,196 on the property.

On December 31, 2014, the Company recorded a write-down of \$564,325 (2013-\$Nil) with respect to the Waconichi property. The write-down was based on a number of impairment review factors, including, but not limited to, indicated market value and the Company's market capitalization.

Option Earn-in Agreement Signed on Croteau Est and Waconichi Properties

On April 21, 2015, the Company signed an option and joint venture agreement with Chalice Gold Mines Limited (“Chalice”) relating to the Company's Croteau Est gold property in Quebec. For the purposes of the agreement, the Croteau Est property includes the Company's adjacent Waconichi property.

Under the agreement, Chalice can earn a 65% joint venture interest in the Croteau Est property by spending an aggregate of \$4,000,000 on exploration expenditures over three years. Chalice is obligated to spend a minimum of \$500,000 on exploration of the Croteau Est property in the first year regardless of whether it fully exercises its option.

Northern Superior Resources Inc.
Notes to Condensed Interim Financial Statements
For the three and six months ended June 30, 2015 and 2014
(Expressed in Canadian dollars)

Upon completion of the \$4,000,000 expenditure earn-in requirement, a joint venture will be formed with Chalice holding a 65% joint venture interest and Northern Superior owning a 35% joint venture interest and thereafter, each party will be required to contribute to any further programs pro rata according to its joint venture interest. Should a joint venture party fail to make any of its required program contributions, its interest will be diluted accordingly.

Under this agreement, if one of the parties interest is diluted below 10%, its interest will be converted to a NSR interest as follows:

- (i) with respect to any claims which are already subject to an NSR (to a third party):
 - a. for period(s) where the price of gold (as quoted on the London Gold Fix) is less than C\$1,800 per ounce, a 1% NSR; and
 - b. for period(s) where the price of gold (as quoted on the London Gold Fix) exceeds C\$1,800 per ounce, a 2% NSR; and
- (ii) with respect to all other claims, a 2% NSR,

and in each case, one-half of the NSR percentages can be bought back for \$1,000,000.

Grizzly Property

The Company incurred net expenditures of \$5,064 (2014—\$23,547) on the property during the six months ended June 30, 2015 and since acquisition has recorded total cumulative expenditures of \$110,117 on the property.

Option Earn-in Agreement on Lac Surprise Property

In April 2014, the Company signed an option agreement with Bold Ventures Inc. (“Bold”) whereby Bold can earn a 50% working interest in the Lac Surprise property by spending an aggregate of \$2,000,000 on exploration of the property and issuing to the Company a total of 350,000 common shares of Bold, all over a three year period, 50,000 shares of which were issued upon signing the agreement. Bold met its first year optional commitment of \$500,000 in exploration expenditures, and the issuance of another 50,000 common shares of Bold (received to subsequent to June 30, 2015). The second year optional commitment is 100,000 common shares of Bold and \$500,000 in exploration expenditures. The third year optional commitment calls for \$1,000,000 in exploration work on the property and the issuance of 150,000 common shares of Bold. Bold will also hold the option to earn an additional 10% in the project by delivering a positive feasibility study within five years from the date of execution of the formal option agreement. If Bold takes up all parts of the option it will have earned a 60% interest in the property. Upon Bold earning either 50% or 60% interest in the property, the Company and Bold shall form a joint venture to hold the property and conduct further exploration activities.

Write-off of Meston Lake, Rapson Bay and Thorne Lake Properties and Related Ontario Litigation Costs

In the year ended December 31, 2013, the Company recorded a write-off of \$6,005,125, representing the unamortized balance of its deferred exploration costs incurred in connection with its exploration of the Meston Lake, Rapson Bay and Thorne Lake properties (the “Properties”). The decision to write-off the Properties was based on the Company’s determination that it lost the ability to access to the Properties, as well as its ability to realize the benefits of any value created from its exploration expenditures to date, due to the actions of third parties. On October 24, 2013, the Company filed a civil lawsuit against the Government of Ontario seeking among other things, damages of \$110 million and consisting mainly of amounts expended to date as well as for lost value of the Properties, as a result of lost access to the Properties. The original trial date of June 1, 2015, set by the Ontario Superior Court, has been rescheduled to October 5, 2015. In the six months ended June 30, 2015 the Company incurred costs of \$472,454 (2014-\$147,840) in respect to the litigation of its claim (note 14).

8. SHARE CAPITAL

a) **Authorized:** Unlimited common shares without par value.

b) Issued Capital

In August 2014, the Company issued 307,694 shares of the Company at a deemed aggregate share cost of \$80,000 in connection with an option agreement to acquire a 100% interest in the Croteau Est property in Québec (note 6).

c) Stock Options

As at June 30, 2015, the Company had 10,785,000 stock options outstanding of which 6,176,666 were exercisable under the Company's stock option plan. The terms of all options cannot exceed ten years and the minimum exercise price cannot be less than the closing price of the Company's common shares on the TSX Venture Exchange on the last trading day preceding the grant of the option. All of the outstanding options of the Company were issued with an expiry date of 5 years from the date of issue. The Board of Directors determines the vesting terms of the options, with a typical vesting schedule of 1/3 of the options under the grant vesting on each anniversary over a three year period after the date of grant.

A summary of the changes in the Company's stock option plan for the six months ended June 30, 2015 and the year ended December 31, 2014 is as follows:

	Six months ended June 30, 2015		Year ended December 31, 2014	
	Number of options	Weighted-average exercise price	Number of options	Weighted-average exercise price
Outstanding, beginning of year	11,160,000	\$0.28	12,194,567	\$0.21

Management of Financial Risks

The Company thoroughly examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks may include credit risk, liquidity risk, market risk and other price risks. Where material, these risks are reviewed and monitored by the Board of Directors.

i. Credit Risk

Credit risk is the risk of an unexpected loss if a party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to cash and receivables. The Company has no significant concentration of credit risk arising from operations. Management believes that the credit risk concentration with respect to financial instruments included in receivables is remote. The Company is not exposed to significant credit risk and overall the Company's credit risk has not changed significantly from the prior year.

ii. Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2015, the Company had cash and cash equivalents of \$2,501,032 (December 31, 2014-\$3,615,065) to settle trade payables and accrued liabilities totaling \$209,057 (December 31, 2014-\$189,880). All of the Company's financial liabilities have contractual maturities of 30 days and are subject to normal trade terms.

iii. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to short term interest rates through the interest earned on cash balances. For the six months ended June 30, 2015, a 1% change in short term rates would not be material to the interest income and net loss of the Company.

Unless otherwise noted, it is management's opinion that the Company is not exposed to significant currency or commodity risk arising from financial instruments.

12. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it to effectively support the acquisition, exploration and development of mineral properties. In the definition of capital, the Company includes, as disclosed on its statement of financial position: share capital, deficit, equity reserves and cash and cash equivalents.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for general administrative costs, the Company will be using its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and

seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so (Note 6).

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the period ended June 30, 2015. The Company is not subject to externally imposed capital requirements and does not have exposure to asset-backed commercial paper or similar products.

13. COMMITMENTS

	1 - 5 years	Total
Operating lease - office lease	\$ 94,738	\$ 94,738

The Company has future commitments under exploration and evaluation property option agreements to issue shares and incur exploration expenditures (note 6).

14. CONTINGENCIES

On October 24, 2013, the Company filed a civil lawsuit against the Government of Ontario seeking among other things, damages of \$110 million and consisting mainly of amounts expended to date as well as for lost value of the Properties, as a result of lost access to the Properties. The original trial date of June 1, 2015, set by the Ontario Superior Court, has been rescheduled to October 5, 2015. In the six months ended June 30, 2015 the Company incurred costs of \$472,454 (2014-\$147,840) in respect to the litigation of its claim (note 6).

15. SEGMENTED INFORMATION

The Company conducts its business as a single operating segment, being the mining business in Canada. All resource properties and equipment are situated in Canada.

16. NOTE SUBSEQUENT TO THE END OF THE REPORTING PERIOD

On August 10, 2015, the Company issued 615,386 shares and paid \$160,000, which represented the final payments required for it to complete the exercise its option to acquire 100% of the Croteau Est property.
