### **NEWS RELEASE - For Immediate Release**

#### **Northern Superior Appoints Red Cloud as Capital Market Advisors.**

**Sudbury, Ontario, September 1, 2016. Northern Superior Resources Inc. (TSXV:SUP)** (“Northern Superior” or the “Company”) reports that it has entered into a public relations agreement with Red Cloud Klondike Strike Inc. (“Red Cloud”), a Toronto- based company, to provide capital markets advisory services.

Northern Superior will focus its’ marketing efforts around its 100% owned, Croteau Est gold property, located in west- central Québec. This property has already defined an inferred resource for the central section (approximately 550m strike by 150m width) of the Croteau Bouchard Shear Zone (“CBSZ”) reported using a gold cut-off of 1.0 g/t Au totaling 11.6 million tonnes grading 1.7ppm Au, yielding 640,000 ounces of gold. This inferred mineral resource estimate is based on only 64 core drill holes (20,643 m). In addition, an exploration potential/target, ranging from 3.2 to 3.8 million tonnes, for a total of 122,000 to 270,000 ounces of gold, was also identified by single drill hole intersections (see press release January 14<sup>th</sup>, 2016).

Mineralization associated with the CBSZ occurs at surface, and remains open along strike in both directions (length defined thus far 1.1km) and at depth (only one hole to 575m vertical depth). Management believes that a modest core drilling program (30 holes, 9,000m, \$1.5- \$2 million budget) has the potential to increase the number of ounces associated with this deposit. In addition to the inferred resource, Northern Superior’s property- scale prospecting programs and structural studies identified additional gold- bearing shear zones within the Croteau Est property (see press releases November 3, 2014 and April 21, 2015).

Dr. T.F. Morris, President and CEO of Northern Superior commented: “With the commodity markets finally emerging from a difficult, four year downturn, Northern Superior is now poised to re-introduce the Company aggressively to the financial markets and remind the Company’s shareholders of the valuable assets under Northern Superior’s control. In addition to Croteau Est, the Company took advantage of this downturn to position several of its other key assets for aggressive core drill programs (TPK, Lac Surprise, Ville Marie).”

#### **About Northern Superior Resources Inc. ([www.nsuperior.com](http://www.nsuperior.com))**

Northern Superior is a junior exploration company exploring primarily for gold in the Superior Province of the Canadian Shield. The Company is currently focused on exploring its Croteau Est property in Québec. Northern Superior also has a number of other 100% owned properties in Ontario and Québec. Northern Superior is a reporting issuer in British Columbia, Alberta, Ontario and Québec, and trades on the TSX Venture Exchange under the symbol SUP.

## **About Red Cloud**

Red Cloud is a Toronto- based, exempt market dealer focused on providing unique and innovative marketing growth opportunities and market exposure for select mining and mineral exploration companies. The Red Cloud team has a mix of technical and financial expertise with over a 100 cumulative years of combined mining and corporate advisory experience. Working as an extension of management, the Red Cloud team uses its global network of mining and capital market professionals and extensive in-house experience in the many facets of the mining and mineral exploration business to help companies generate and maintain important relationships with key investors. Northern Superior will pay a \$7500 a month (initiated September 1<sup>st</sup>, minimum three month term) consulting fee to Red Cloud for this service.
